Mr. Prato will have the good use to send me some paper, Quills,  
Ink a powder, Books for Memorandums, Sixth Books and Buttons  
as rewards for children, Medicines, Buchanan's Treatise on  
Apothecaries Weights & Scales, Scales for the Purpose of letting blood  
also Burns Justice & Periodical Publications. &c &c

With respect to the investments I could wish you would introduce  
the subject to the Comm<sup>rs</sup>. Every thing bears such a high price  
in New South Wales that a small salary is gone very soon,  
and to consider the settlers in this manner would have a  
tendency to attach them to the Society & it could not at the  
same time give any offence to Mr. Marsden. Mr. Marsden  
should be instructed to suffer nothing to be unpacked which  
was directed to the Missionaries in New South Wales.
