

N.B. of the Medicine Chest was sent in the Frances and Eliza  
it is very probable the charge on of the American Provision took  
it away. The Frances and Eliza was taken by the Warrior America

Provision and restated afterwards.

If it should not be thought proper to send over my salary by  
way of Invoice but I shall submit. In that case it would be better  
to send me out of a copy of such things as are sent to Mr  
Mason or else I shall not know how to order such things as will

not me.
