

The Postscript in Mr Pratt's instructions to Messrs Hall and King are exceptionable when a body of Christians are together. I have observed with pleasure some late regulations contained in the instructions of the Committee to the Missionary Settlers going to Africa (in the Missionary Register Nov. 1814) respecting Mechanics.

I must now communicate my thoughts on the subject of raising a school here. I have before stated my opinion that I can have plenty of scholars as soon as convenient apartments are prepared for their accommodation. This will be accomplished as I hope in a short time. I shall therefore acquaint you with the manner in which I intend thro' the Divine Blessing to establish and support a school for the approbation of Mr. Ward and the Comtee. Any alterations which the Committee or Mr. Ward may require to be made I shall cheerfully agree to.
