

M. V. is a very extraordinary man - he is not fit for
 W. S. Wyles. I think him very dangerous to the quiet
 of Society in a political sense - I also think a man
 who feared God, and wished to promote the Gospel,
 could never act in the way M. V. has done, and
 I think will continue to do - I am persuaded
 from his turn of mind, and public Declarations,
 that he will continue to molest the Governor
 if he returns to England. I should recommend
 his Representations in some Cases to be received
 with Caution, as I am sure they will be
 strong - He is a man of Ability as a public
 Speaker, and will draw a Congregation to
 him - but out of the Church - his Conduct
 here has been very strange, and very unlike
 a Clergyman, according to my Judgment.
 God may come out of evil - and I think
 in the present Instance it will -
