

letter was printed, I feel it my duty to release the
Printer from any possible responsibility consequent on its
publication he having merely performed his duty on the
Occasion I having given it my official Imprimatur

In drawing this letter to a conclusion I
to observe that His Excellency the Governor's residence
being at present at Parramatta I had it not in my
Power to submit the letter of Philo Free to His Excellency's
superior Judgment and by this means I was left without an
Alternative but either to admit or reject it in toto, it
not being within the province of a Censor to expunge or
alter any Sentiments so committed to His perusal.

I have the Honour to be
Sir,
