On the 16th. The wind the same Mr Butler better

Sunday the 18th. On the night past the wind arose
and blew a strong gale and lasted all the day so that
we could not have publick Service it shattered the fore
top Mast Stencil in pieces. This was the first time that I
saw a gale of wind; and truly it is distressing to Nature
to see the raging Billowers. But I can truly say that
we felt in Jesus a swee refuge from the Storm.
The waves of the sea are mighty but the Lord is
mightier than them all. he have our Lord also have
that Promise that when flesh and heart shall fail God
would be the strength and portion of our souls for ever
