

*From F. Hall [to CMS Secretary Josiah Pratt]*

Baring at Sea about  $\frac{1}{2}$  a

Degree North of the

Line – Long. 18.50

Rev<sup>d</sup> + Dear Sir

Jos<sup>h</sup> Pr<sup>t</sup>

7 March 1819

I snatch the opportunity of sending a few remarks I have made as we have passed along as fair as I have time to write them up. Brother Butler will write you more fully. We had expected to touch [?] at Rio Janeiro but Capn. Lamb has altered his plan and I fancy we shall proceed our Voyage without touching any where. We are all Thro' [?] very, bravely Teeterree is acting unkindly but we hope he will see his error, and take our advice and endeavour to learn to read +c. I have only time to add, Tooi sticks to us + I hope will continue to do so, but has not that relish [?] for Divine things which might have been expected from my last report.\_ They both join me in affectionate regards to all.

I am

My Dear Sir

Your very the [?]

F. Hall
