

196 prayer to the Most High in the Morning - The rest of
the day employed reading Gods Holy word and private prayer
This may be said to be the first Gale of wind we have had
during the Voyage. We have not had the Dead Lights
down since we left the Downs till now
Lat 39.47 N Long 15.48 E

Monday 19 Apr.

More moderate weather but still blowing fresh - Our
friends better - Employed in the School below but had us
in deck because of the Weather.

Lat: 38.41 N - Long 17.45 E

Tuesday 20 Apr.

During the last 24 Hours we have been exceedingly torped
with a violent tempest from the N.W. for the most part
scudding under a reefed fore sail at about 10 knots of haul.
The Winds roared and the waves smacked them. In the
great conflict between the elements every now and then a
white topped billow bore upon the vessel and gave us a good
sousing. The good old Baring behaved nobly. Our little
party were enabled through mercy to pass their souls in peace.
The mighty God of Jacob was our help and underneath us
were everlasting arms. At midnight is pleased that
Blessed Jesus who holds the winds in His fist to say to the
troubled Ocean Peace be still. and the Gale moderated.
God is our refuge and strength, a very present help in
trouble. Therefore will not we fear though the Earth be
removed and though the mountains be carried into the
midst of the sea. though the waters thereof roar and be
troubled, though the mountains shake with the swelling
thereof. I love the Lord because He hath heard my voice
and my supplications. Because He hath inclined His ear unto
me therefore will I call upon Him as long as I live. Give
Heavenly Father unto us Thy Servants, Gratitude and humility.
Grant Gracious God that this storm may put many in mind of
fleeing for refuge to that Blessed Jesus who is our hiding place
from the storm of Thy righteous indignation against Sin.
Mr Kemp still poorly but very patient

Lat. 39.19 N. Long 22.54 E

Wednesday 21 Apr.

Smart breezes driving us along rapidly. went through
our respective duties regularly today. which the weather
prevented yesterday - Mr Kemp better but weak -

Lat. 39.17 N. Long 26.3 E
