

In future I hope care will be taken to settle finally every Account with Individuals who may be employed in the mission, previous to leaving the Settlement, and legal Receipts sent to U.S. Vales to prevent a recurrence of any similar Proposition to Halls.

I have no doubt if I had brought the Letters from New Zealand, Halls would have been severely punished, but he and his Advisers never I could not do this - I need say no more upon this Venetians Business.

I am with much esteem yours affectionately

Samuel Marsden
