

by the whole, or by any part let such as
may approve of this, state what sum
of money would be deemed by them a
sufficient annual salary during the
period they may continue in the Society's
service for the support of themselves and families
according to their respective situations -

One advantage would be obtained if those
employed in the mission were paid a
specific sum to cover all expenses -
that the Society would then know the
exact sum they had to provide annually
for the ~~exclusive~~ support of the Churches

Secondly - There could then be no disputes
about the provisions - every one might then
lay out his salary in any manner he thought
good -

I will thank you to take this subject into consider-
ation, and let me know your views - Should
you come to any determination I will
forward the statements you make to the
Society, and you can also send one by the
first water for their opinion and sanction

June 29th 1821

Yours affectionately

J. M. Anderson
