

thankful. I shall not enter into particulars; suffice it to
say it will turn out for good in the End. I am
sorry to say Dr. Angless has disappointed me much
in the opinion I had formed of him - Missions will
surely find them out - I need say nothing respecting the
misnomers of the Islands of St. Paul and - you will
have from their own letters all the Information
I could give - The Cause will go on, in spite of
Satan and all his Agents - I think I mentioned, we
had several old Sealmen at Parramatta -
They are coming at all opportunities, by which
means they gradually learn our Language,
and become acquainted with our Manners -
Should a favourable opportunity offer I purpose
to visit them again in St. Paul and - and to see
what they are doing - No some of the present
misnomers are very improper Persons for the
work, yet they are such as Divine Providence
has thought proper to employ for some good
End which we may not see at present - The
wheat and Pars both grow together - The Husband-
man grieves to see the Pars, but he cannot help it -
The mischief is Gods Cause, and he will take care of
it - I have requested Captain King to call upon you
he will give you any Information in his power -
I have to thank the Society for the Rev. C. Sinners
works - A more acceptable Present I could not have
received - I am yours affectionately
Rev. J. Pratt
S. Marsden
