

be found here in the Colony - The times have
been unpropitious, but I hope it may be done
I have mentioned the subject to Lady Pristun
who is very well inclined towards improve-
ments as well as Sir Thomas - I think it may
be done under his administration -

You will probably hear that I have been compelled
to appeal to the Supreme Court for redress from
the injustice and unconscionable oppressions
of Mr. Douglas in his office as magistrate.
The cause will be heard before my return
to the Colony - Should Surgeon Hall have
arrived, he will publish what took place
in the Colony when he was here, in consequence
of a lawsuit woman who came out with
him applying to him for protection from
the improper behaviour of Mr. Douglas in
whose service she was at that time -
men under the Government of their carnal
lusts cannot bear restraint or reproof -

We live in a wicked and ungodly world, and
have much need of patience, with the various
trials we are assailed with, and continually
to pray to be delivered from unreasonable
and wicked men -
