 a wood about four Miles distance, the water was
 warm and very offensive, it sent forth a continual
 Steam and on the Surface was a thick Lime like
 Yellow Ocher, but of matter a redder coat with which
 the Natives Paint themselves, the water had a strong
 Sulphureous smell, I brought away with me some of
 the Stone about it which is hard and flinty, the
 Natives informed me that there was another Spring
 about six Miles from the Village where the water
 is white and very offensive No Wild Ducks or Hawks
 were ever seen on this water, - We returned to the
 Village performed our Evening Devotions and conversed
 with the Chiefs, on various subjects till a late hour
 The night was Cold and Dark and our shed open
 on three sides and no roof, which made our accom-
 modation very uncomfortable, The New Zealanders
 Men Women and Children lay down round about the
 Shed like Cattle in a farm Yard and apparently
 as unconcerned about the Rain and Cold, -
