

1823 Oct-7th I went to the Rev^d J Butler and to speak to both him and his Son, and to point out to them what appeared to me so very improper in their conduct at the Committee - after the meeting closed I went with Shungee accompanied by the Rev^d J Butler to fix upon a place for a small House for Shungee 20 feet by 10 - I have no doubt but a little House will be highly acceptable to him and it is but just that he should have one - I have long wished this to be done for him and I hope it now will -

Oct-8th I sent for Mr J Butler this morning and spoke both to him and his Son relative to what ^{passed} at the Committee and also wrote him a public letter, which I hope will be attended with some good effect - It is painful to have to reprove persons in public situations who ought to conduct themselves so, as never to require any thing unpleasant to be said to them. I wrote also to the Rev^d J Wendall upon his improper conduct on the 4th instant at Middlebury - I feel my situation far from being pleasant in such a Society. There are some in the Mission whom I much esteem for their Piety, and Christian behaviour. I would they were all such -

Shungee called upon me in the morning and we had much conversation upon different subjects - He told me that he wished to turn his attention to Agriculture if I would send him a Man to teach his people to plough, and furnish him with a Team - He would then make a road
