

*omit*  
*advised*  
*by Mr. Kendall*  
I recommended Mr. Kendall to set about this important work immediately, which he agreed to do. He was not to write this resolution on the C. M. S. Account as he is no longer a servant of theirs - I observed to Mr. Kendall the Society was no debtor to him, but he was a debtor to the Society, and therefore should do any thing he could to repay them - I promised to furnish him with all the words I could procure from the other missionaries <sup>as</sup> - I knew that they would cordially write in the plan now adopted

*Preached in Mr. Williams' Church*  
Jan. 28. I preached for the Rev. Mr. Williams this morning in his little thatched Church about 20 feet by 15: which has been just built - Several natives attended besides the Europeans - and as well - when once they know the joyful tidings they will become expert people - I never saw finer children, or better behaved than the children of the natives.

*Reflection on Public worship*  
In the evening I preached to the crew of the Porpoise on the Island of Motouou about 6 miles distant from Pigeon - I long much to return to my variety and people, to worship God on an Island in a savage land is ~~to~~ <sup>very</sup> different from meeting in the Assembly of the Saints in Gods holy Temple here on Earth. There wants that reverence and solemnity, and holy presence which appear to be attached to the very walls of Gods House where his people meet to worship him, and which tends so much to excite devout affections in the pious mind
