

1823<sup>11</sup> Oct- 6

we held a committee to day, upon different subjects  
 come under cons. sanction - I conceived the House  
 which the committee had agreed for Mr. S. Muller  
 for too large and expensive - I told the missionaries  
 that it was out of my power to sanction such  
 an unnecessary expenditure of the Societys  
 funds. Mr. Muller did not like the alteration as he thought  
 his son ought to have such an House as the committee  
 had agreed to. At length I carried the alteration, and  
 the building was reduced to 18 feet by 15, divided into  
 different rooms - This was a building quite large  
 enough, <sup>and to spare</sup> as Mr. Muller has only his wife and himself.  
 The public business took up the whole day, during  
 which many unpleasant observations passed in  
 the committee, which grieved me much. The  
 evils of this mission have been very great.

Oct 7<sup>th</sup> Wed. This day the committee met again to close  
 the matters under consideration, I was far from  
 being satisfied with all that I had heard. <sup>on the</sup> <sup>warmth</sup> <sup>of parties</sup> Mr. Muller had been very warm, and displayed  
 himself very unguardedly. His son had also shown  
 a very improper disposition - I was determined  
 to write to the Rev. Mr. Muller & to speak to both him  
 and his son, to point out to them what appeared  
 to me so very improper in their conduct at the  
 committee. After the <sup>committee</sup> meeting closed I went with

Mr. Phelps accompanied by the Rev. Mr. Muller to find  
 a place for a small House for Mr. Phelps  
 20 feet by 10 - I have <sup>no</sup> <sup>doubt</sup> but a little House  
 will be highly acceptable to him, and it is but  
 just that he should have one - I have long wished  
 it to be done for him, and I hope it now will

to see a  
 on the  
 warmth  
 of parties  
 Charles  
 House
