

^{disputes}
I had ^{disputes} concerning ~~the~~ ^{the} ~~plan~~ ^{plan} with the Rev. Mr. Butler
about his ^{own} House - He told me repeatedly he would
leave the mission, he would not remain in New
Zealand ~~unless he could~~ to be annoyed as he was - I said
was no cause whatever for him to be angry - and I replied
he was at liberty to leave the mission when he thought
proper - His son in the first place wanted an extravagant
House building far too large & expensive for a missionary
I had reduced the plan considerably, but still it appeared to
me unnecessarily large - ~~He told his~~ His son was hurt
that I had made any alterations, and spoke in a very
improper manner - I sent for the Carpenter, and gave
him the plan of the House, that I wished to have built
at Ice, and desired him ~~to~~ to inform me when
he would complete it, and when it was done he was
to hand over the key to Mr. Butler - and that Mr. Butler
was not to interfere with the building, but attend to
the duty which he was sent out to perform, the
Education of the Children - at the same time pointed
out to the Rev. Mr. Butler that his son had been ~~so~~ years
wholly neglected his duty since his arrival in
New Zealand - in having no school of any kind which was
very disgraceful to all concerned - After I had expressed my
sentiments to the Rev. Mr. Butler relative to his sons
House, and had shown him the plan, he left
Kiddie Kiddie for Ice where his son was, and
informed him that I made some alterations
in the plan of his House, and reduced the dimensions
His son left the Ice and arrived in the
Evening at Kiddie Kiddie to remonstrate with
me - I told him, the Carpenter had received
orders to build an House at Ice containing 4
Rooms - one for a Kitchen 2 Bed Rooms
and a Dining Room which I considered large
