Rev^d Sir,

①

Having communicated to the Rev^d Basil Woodd, my inclination to offer myself to the consideration of the Committee of the Society for Missions to Africa and the East; provided I can learn, that I am calculated to render them any assistance, in preparing the way for the introduction of the Gospel into one of the Islands of New Zealand; and, having been directed by him to apply to you in his name, should I wish to consult farther about the Business, before he comes to Town which will be in November, I therefore take the liberty to request an interview with you when it is convenient; in order that we may converse upon the Subject.
