Common Dec 13/19

Cheltenham Nov^r 19-1819

My Dear Sir,

I hesitated to send you this small packet of seeds - from the fear they might not be worth the acceptance of the Missionaries - but finding that the mode of propagating gooseberries & currants from seed is not generally known - and the departure of the Missionaries is delayed - I trouble you with this small collection - which we had hoped to have taken with us ourselves - should these common seeds not be already cultivated. They may not prove insupportable.

I beg to repeat my former wishes to occupy my time while I remain in England - to the best advantage - for the use of the Missionaries - and with thank you for any advice on the

Nov. 19/19

subject - with fervent prayers. that the
blessing of God may accompany his servants
and our earnest desire. that we may be
permitted soon to follow them

I am
Dear Sir

Yours sincerely

Jerry Williams
