are sitting by me & relate that themselves
will feel ashamed to be seen by his
family with less property than 70
- seven members of the Society are with me,
& we all unite in recognizing the propriety, the
policy, the duty which, the good, the welfare
of the Ch. Mission involves in this transaction.

Mr N. & Mr K are of opinion that not
less than 12 large axes, & 12 small axes,
6 staves, 12 hoes, 6 spades, &
one whaling knife should be given
to each of them. This, if a watch,
value about 2 guineas, were added to
~~not exceed~~, & a suit of clothes, would
not exceed 15 each; & really 30 w^h
well spent to secure their friendship
& protection = If you approve of this
I do recommend for Mr Kendall
